

## H4 Fisheye Camera Line

The new Avigilon™ H4 Fisheye camera line is designed to provide a complete high resolution 360-degree panoramic view of a scene with no blind spots. The H4 Fisheye camera line is a cost-effective, easy-to-install solution designed to provide clear image detail and broad coverage with fewer cameras.

By providing quality imaging and situational awareness, the H4 Fisheye camera is an essential component of the complete Avigilon solution and a valuable addition to any existing surveillance solution.

The H4 Fisheye has a sleek, low-profile design making it suitable for installations where aesthetics are important and allowing it to fit in with architectural features without detracting from the surroundings. Its IK10-rated, vandal-proof and IP66 weather protected housing is ideal for indoor and outdoor environments such as retail stores, theatres, gas stations, manufacturing, healthcare, commercial and educational facilities.

Built on the H4 platform, the H4 Fisheye is available in 6 and 12 megapixel (MP) camera resolutions. It delivers exceptional image quality even in harsh environments and lighting conditions, and keeps bandwidth and storage to a minimum. Its content adaptive IR technology provides effective brightness while maintaining excellent scene illumination in dark environments. The H4 Fisheye also allows users to zoom in, focus and investigate a region of interest (ROI) in live or recorded video while preserving full situational awareness.

Harnessing the strength of Avigilon Control Center (ACC)" software, High Definition Stream Management (HDSM)" technology and idle scene mode technology, the H4 Fisheye camera intelligently and efficiently manages video data, lowering bandwidth and storage. The powerful client-side de-warping coupled with virtual PTZ technology allows easy navigation through live or recorded video, enabling security operators to view and track an object of interest from point A to B.

## **KEY FEATURES**

6.0 and 12.0 megapixel resolution models

360 degree field of view fisheye lens

Patented High Definition Stream Management (HDSM)™ Technology

Content adaptive IR technology provides effective illumination through the field of view, while maintaining excellent scene illumination

Integrated IR (Infrared) LEDs provide uniform illumination in the dark, even at 0 lux, up to a maximum of 10 m (32.8 ft) away

Idle Scene Mode lowers bandwidth and storage usage if there are no motion events detected in the scene

IP66 certification offers total dust ingress protection and protection against high-pressure water jets

Avigilon LightCatcher technology provides exceptional image quality in low light environments

Vandal resistant with IK10 impact rating

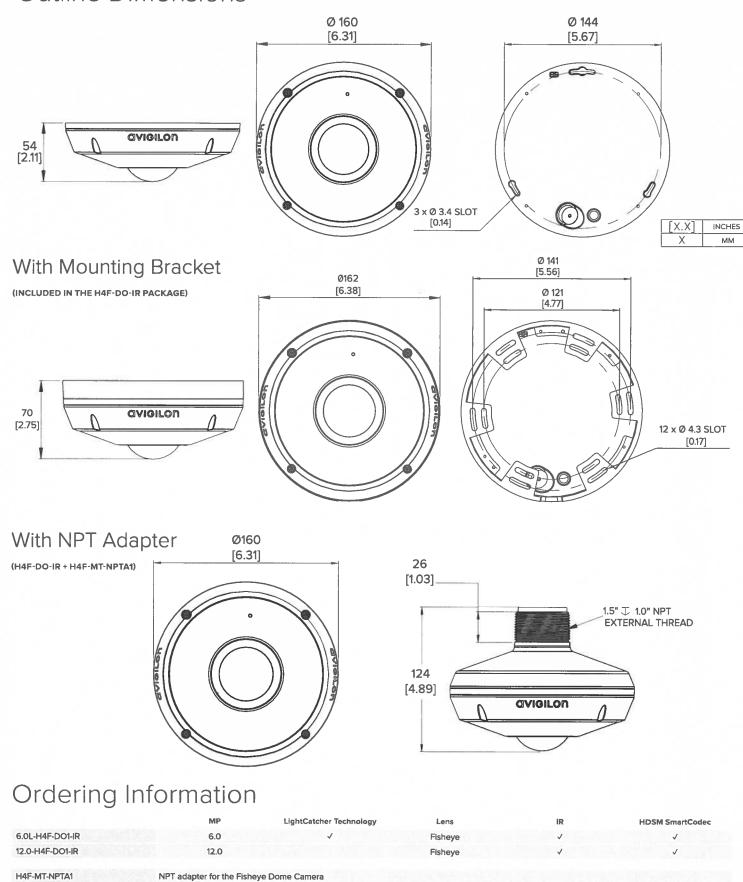

ONVIF® Profile S and Profile T Compliant
