INSTALLATION INFORMATION

Accessories

Find the following when unpacking the Remote Reader:

- An ImproX (RRM) Registration Remote Reader housed in a Natural, Anodised, Aluminium extruded Cabinet. The ImproX RRM consists of a Front Cover, a Base Frame and two Side Plates (the assembly includes 2 m (7 ft) of flat, 4-core Cable).

- An extra Serial Number Label.

General

Remember the following when installing the Remote Reader:

Distance between the Registration Interface and the ImproX RRM

The maximum cable distance between the ImproX Registration Interface and the ImproX RRM, MUST NOT exceed 2 m (7 ft).

Blank Space

Mounting the Cabinet

CAUTION: **Make certain that you place the Registration Remote Reader on a vibration-free surface.**

There is no installation required for the ImproX RRM.

Place the Remote Reader in a convenient location near the Registration Interface and Host PC.

Connecting the ImproX RRM

Figure 1 shows a typical connection diagram for the ImproX RRM.

Figure 1: Typical ImproX RRM Electrical Connections

NOTE: *On powering up, the Remote Reader will produce a beep sound and the Status LED will illuminate solid Red.*

                 The ImproX RRM will not read Tags until configured in the Software. Details of these procedures are located in the IXP120, IXP200 or IXP300 and IXP400 Software Manuals.

Serial Number Label

The loose Serial Number Label (packaged with the Remote Reader) identifies the type of Remote Reader and its Serial Number.
